growing experience

DIFRUSA EXPORT

Our company was born by the union of **leading producers at the South of Spain**. Our partners are leaders in agriculture in Murcia, Almeria and Huelva regions.

Difrusa was founded in 1990 with the main objective of ***providing an integral service from the field to our customers***. We keep control on the entire process: seeds, fields, quality protocols, crops production, packaging, marketing and logistics.

our values

Our production

from the seed to the customer

Logistics

in due time and manner

Certified Quality

control, security and guarantee

Commercial experience

service and quick response

own production

from seed to customer

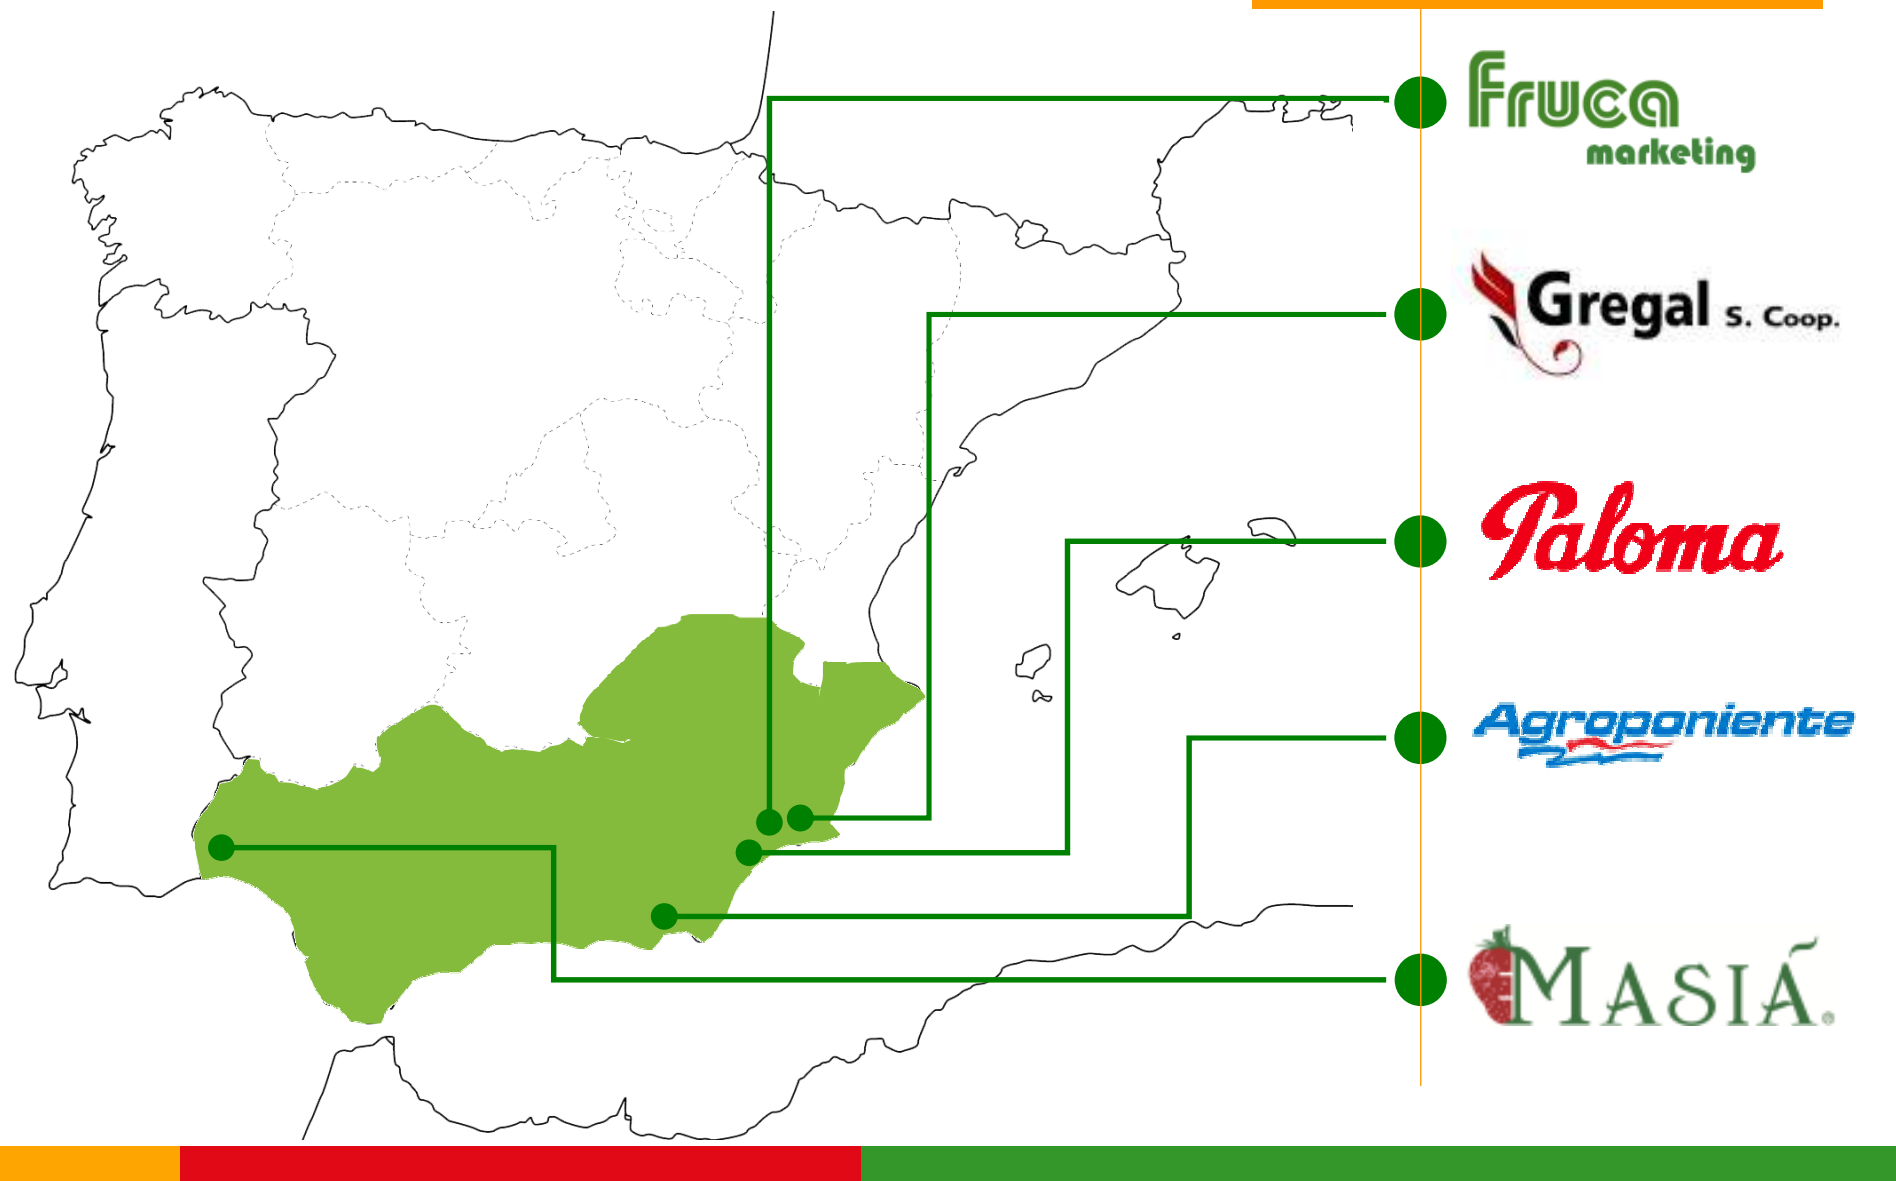

- Our partners have seed nurseries and select the best varieties suitable to market needs and every moment of the season.
- Technical staff monitor our plantations, optimizing resources and controlling the evolution of crops, so we have first-hand information of what is happening in the field.
- We harvest at the optimal time of maturation, so that our customers obtain their products with the best conditions of color, flavor and aroma.
- Our packhouses have cutting edge technologies to optimize costs and ensure the quality demanded by our customers.
- We adapt to your packaging formats (cardboard, wood, IFCO, Svenska, EPS, Steco ...) according to your logistics and distribution requirements.

growing capability

from seed to customer

- Our partners have over 4,600 hectares of crop production in the south of Spain.
- We own more than 235.000m² of facilities in different production centres. Each one is specialized in specific products.
- We use the most innovative technology for harvesting and packaging, reducing costs and ensuring quality.
- Specialized technical teams keep watch over food safety and quality standard required, on the fields and pack houses.
- We have over 1,000 employees in all our workplaces.
- In addition, we have an extensive network of trusted partners that extend our range of products even more.

logistics

in due time and manner

- Our own department of logistics management allows us to deliver your goods in due time and manner.
- We closely monitor our loads, solving any issues with quick and efficient solutions.
- We deliver in the main national and international destinations, although we go further.
- We adapt to your needs to maximize and combine loads, optimizing costs and delivery times.
- We have a large fleet of partners at our disposal during the whole season.

certified quality

control, security and guarantee

- Our partners have the **main market certifications**, ensuring quality in production and packaging of all the products we commercialize.
- We are **leaders in quality and food safety**, using cutting edge technology to our crops and packing centers, we also have an international marketing network, and social responsibility and respect for the environment.
- We are also **certified as IFS Broker**, which qualifies us as trusted and recognized service provider in agriculture.

commercial experience

service and quick response

- We have a **broad portfolio of products**. Difrusa partners offer a full range of fruit and vegetables, adapting to the quality and specification required by our customers.
- **25 years of experience** in export are our guarantee to success.
- And **if you can't find it, our sales team will do ...** we have a wide network of partners in Spain who work with us to provide all that you need.
- We know the business, product and market. **You will receive quick, agile and high level of service response.**
- In addition, we have **our own trademark:**
